Disclaimer

This document describes the position currently available. It is not an employment contract. Our company reserves the right to modify job duties or job description at any time.

Funding Process

Following the example of other parachurch ministries such as YWAM, OneVoice Student Missions, and many others, Generation Akron employee job descriptions and work responsibilities include the formation and cultivation of a partner team. Generation Akron employees fulfill their duties and are financially compensated through the financial support of their partner team. Family, friends, businesses, and other interested parties are invited into the work of the Gospel through the support of the Generation Akron employee/missionary.

Upon the offering and acceptance of a position with Generation Akron, incoming employees will dedicate 3 months, prior to their start date, to the building of their partner team. During this period, employees will be enrolled in a partner development training course where they will learn the biblical basis, models, and best practices for partner development. The cost of this course is \$100 - an amount that will be reimbursed to the incoming employee upon the completion of the course.

Liaison and Budget Building

Each incoming staff member will be assigned a Generation Akron Board liaison to provide coaching and encouragement during the partner development period. Prior to the launch of their partner development campaign, incoming employees will take part in a one-on-one budget consultation with their designated liaison. In this consultation, incoming employees will present a detailed breakdown of their monthly living budget. Their board liaison will then work with them to address any forgotten areas that could harm an employee's well-being if not funded (insurance, vacation funding, etc).

Work Commitment, Start Date, and Compensation

An employment start date will be named 3 months from the completion of the partner development training. Employees will be required to have raised 80% of their monthly budget to begin work on this designated start date. If 80% is not reached by the specified start date, the employees living situation and financial means will be evaluated to determine a new start date. Donations may be received for incoming employees upon the signing of an employment contract; however, incoming employees will not begin to receive the compensation from these donations until after their start date.

Incoming employees are asked to make a 2 year commitment* when accepting a job with Generation Akron. This 2 year time frame (24 months) will be the divisible number by which employees will receive 1 time donations.

Example: An employee's partner base donates \$24,000 in 1 time donations during the partner development focus. These donations will be delivered to the employee over the course of 2 years (24 months) in equal amounts. If paid monthly, the employee would receive \$1,000/month for 24 months.

*This 2 year commitment does not guarantee that an employee will be retained for the entirety of the two years or that their employment may not be extended beyond the initial two year commitment. Generation Akron does not offer tenured or guaranteed employment. Either Generation Akron or the employee can terminate the employment relationship at any time, with or without cause.

Volunteer Compensation

Generation Akron volunteers are not compensated for their volunteer efforts and are not permitted to solicit donations, through Generation Akron, for their personal support.

FEEDBACK

"Thank you for talking today at [school name]. I'm a junior and last year you talked to us and your story really stuck with me about the note you gave that girl. You inspired me to go out of my comfort zone and try and speak to someone and listen what they had to say. Really listen to them. Not just hear them. I was able to hear one of my friends story and she thanked me and told me I may have saved her life. I just thought you deserved to know that. **BECAUSE OF YOU... I was able to save a life.** You're incredible. Thank you. You changed my life. You made me realize who I want to be." - Student

"[My mom] gets around a lot 4 kids with 4 different guys and i started to allow myself to be like her. **I was raped by my stepbrother countless times at age 9.** Ive allowed all these things to define my life. But you guys made me view life in a different life and i thank you for that. Ive made some bad decisions. But i will make sure i make things better. Thank you so much! Yes you truly are lifechanging." - Student

"...growing up I was a kid on a mission. I always had to have a 100% in every class and I had to be the best at every sport...Living in a small town you hear every detail and there is a social stigma about kids who's parents have split, like they are an outcast. I go through middle school believing I was invincible to all of the stuff that was happening around me. I always thought the kids were overreacting with their pain and that they were desperate for attention. I never truly knew what they were experiencing because my parents were able to keep my relatively sheltered to all the crap happening in the world. Fast-forward to sophomore year spring. My parents tell me they are getting divorced. I personally saw it coming, so I didn't feel any different for the first week or so. After that my world seemed to fall apart. I didn't tell my friends because of all the social stigma that would come with it, so I kept it inside. My dad moved out and my mom worked until the evening, so **when I came home from school I had an empty heart and an empty house...**junior year comes around and I was a closet alcoholic, and **whenever I was asked about drugs and alcohol I would claim drug innocence. I go to school, put on a smile and act like my world is perfect.** I'm taking all the hardest classes possible and I'm an NHS hopeful. I've seen current seniors get busted with drugs and alcohol and kicked out of NHS and colleges turn them away. I know I need help, but I fear that speaking out will ruin my life and I don't want to be labelled as THAT guy." - Student
